1) *Batters*: Choose players from the Players List below (using the 1,2,2,1... or 2,1,1,2... delineation). This determines your batting lineup and sets your slots. List the player's name and pitching role preference in each slot in the lineup selection worksheet. 2) *Pitchers*: Choose a player from the Slot Chart using the two 6-sided dice. 3) Choose a preference for this player from the Preference Chart and place him/her in the proper section on the Lineup Selection Worksheet, listing both their name and role preference. 4) Choose both the player and the preference from the Wait section.
